

Financial Assistance Policy

Purpose

This Financial Assistance Policy describes the financial assistance and financial counseling services that may be available to eligible patients of The Children's Hospital Corporation d/b/a Boston Children's Hospital (the "Hospital") and its related Physician Foundations (the "Foundations") who receive services at Hospital sites or Foundation sites where administrative support systems and personnel are provided through the Hospital, as well as the process for seeking financial assistance and financial counseling services. A list of the Hospital and Foundation practices, locations and other sites that provide Emergency Services and Medically Necessary Services for which financial assistance is available under this Financial Assistance Policy is available as described in this Financial Assistance Policy. This Policy does not apply to Boston Children's Health Solutions, Rx, LLC d/b/a Boston Children's Pharmacy or any items provided by Boston Children's Health Solutions, Rx, LLC d/b/a Boston Children's Pharmacy.

Policy Statements

1. The Hospital and the Foundations are committed to being resources for children in need of care from the Hospital or Foundation clinicians.
2. This policy applies to Emergency Services and other Medically Necessary Services (as defined below) provided by the Hospital and the Foundations; provided that the following are excluded from the policy, and financial assistance is not available for the following, whether or not they are deemed to be Emergency Services or other Medically Necessary Services: (a) certain gene therapies/products, pharmaceuticals and other therapies (e.g., Zolgensma, Kymriah, Luxterna, Zynteglo, Skysona and such other gene therapies/products, pharmaceuticals and therapies as the Hospital determines), and (b) elective cosmetic procedures. The Hospital will work with patients and their families to assist them with their efforts to seek financial assistance from the pharmaceutical, life sciences, biologics and other companies that provide any such gene therapies/products, pharmaceutical and other therapies that are Medically Necessary and are excluded from this Financial Assistance Policy.
3. The Hospital will provide Emergency Services to all patients, without discrimination and without regard to whether a patient may be eligible for assistance under this Financial Assistance Policy. The Hospital prohibits any actions that would discourage individuals from seeking emergency medical care, such as by demanding that Emergency Department patients pay before receiving treatment for Emergency Medical Conditions or permitting debt collection activities that interfere with the provision, without discrimination, of Emergency Services.
4. The Hospital and the Foundations, through the Hospital's Financial Counseling unit, will assist patients/Guarantors (defined below) with the process for

completing applications for available public or Hospital programs, including MassHealth and other Medicaid programs, ConnectorCare and Health Safety Net, whenever possible.

5. The Hospital and the Foundations may provide financial assistance to patients who meet the eligibility criteria, as defined in this Financial Assistance Policy below.
6. The Hospital and the Foundations will (a) refrain from efforts to collect payment for Emergency Services and Medically Necessary Services (defined below) from patients who are exempt from collection action under the Hospital's Credit and Collection Policy (b) refund any collections received from such patients for Emergency Services and Medically Necessary Services; and (c) share information with one another about patients' insurance and eligibility for public or Hospital programs.
7. The Hospital may, in accordance with the Credit and Collection Policy, extend discounts beyond those in this Financial Assistance Policy, on a case-by-case basis, in order to recognize unique cases of financial hardship.
8. The Foundations may maintain additional financial assistance policies that pertain to patients who receive services from a Foundation at a site unaffiliated with the Hospital (e.g., patients whose services are not scheduled in Hospital information systems).
9. Failure to follow the procedures outlined in this document may result in a delay or denial by the Hospital or Foundations for Financial Assistance.
